MAINE

Current Condition of Transportation:

- 25% of ME's major roads are in poor condition[1]
  - ASCE road grade of D[2]
  - Costs each Maine motorist $525 a year in extra maintenance [3]
  - A total of 765 lives were lost on ME's highways from 2009 to 2013[4]
- Vehicle travel on ME's highways increased 19% from 1990-2013[5] while the state population grew by 8% in that time[6]
- Congestion in America costs motorists $121b annually in wasted fuel[7]

Commerce:

- Each year, 81% of the $31b in goods shipped within ME traveled by truck across the state's vast highway infrastructure[8]

Need for Federal Investment:

- 57% federal share of Maine Highway Capital Program[9]
- National Interstate Backlog of $185.24b on 47,575 miles of interstate[10]
  - National Highway System (NHS) backlog of $424.5b on 227,224 miles of the NHS

DRIVE Act ⟶ ***What this does for Maine***

Prioritize bridge reconstruction and safety:

- Increased bridge set aside funding for:
  - ME's 364 structurally deficient bridges - 33% of Maine's bridges are rated as structurally deficient or functionally obsolete [11]
  - Current ASCE bridge grade of C-[12]

Improves Commerce:

- FY 16 Dedicated funding for freight program: $9,332,776
- Prioritizes federal spending on the interstate for projects in the national economic interest

Long-Term 6-Year Certainty:

- Total FY16 share: $191,276,505
- 214 projects are at risk with lack of federal investment[13]
- Critical Projects:
    a. Route 1 Improvement in Ogunquit: to reconstruct Route 1 and to build two new bridges over the Ogunquit and Josias Rivers on the major route

- Building off NEPA reforms accomplished in MAP-21, DRIVE is cutting red tape and accelerating project delivery to increase ME's ability to efficiently finish projects.
- DRIVE delivers 6 years of certainty. 12 short term extensions since SAFETEA-LU have impeded on ME's ability to properly plan and budget for transportation projects.
- DRIVE gives ME the ability to prepare for the next 50 years. With a focus on innovation, ME can better deploy technology to improve the state transportation network.
