Subject Thank you for Keystone XL comments and MEETING REQUEST from enviro. community

Dear Mr. Sussman, Ms. Giles, Ms. McCarthy, and Ms. DePass,

We were thrilled to read the comments released by your office on the Draft EIS for the Keystone XL project last week. EPA's engagement is helping make the environmental issues connected to tar sands an important part of the national discussion around this permitting process. Our coalition has had several positive meetings with you in the past, and would like to set up another meeting to express our appreciation, discuss the EPA's comments in more detail, and talk about next steps to support you in making sure that all the information you requested is a crucial deciding factor in the final National Interest Determination.

Would you all, or some of you, possibly be available to meet sometime soon to discuss this important matter?

Thank you for your time, and for all of your continued good work.

Sincerely,
Lena Moffitt
