

RHODE ISLAND

Current Condition:

- 41% of state's major urban roads are in poor condition¹
 - \$496.0 million a year in cost to motorists from driving on roads in need of repair, which is \$662 per year for motorists²
 - A total of 344 people died on highways from 2009 through 2013³
- Rhode Island's population grew by 19% between 1990 and 2013⁴
 - Vehicle travel on state highways increased by 11% from 1990 to 2013⁵
- 37% of state's urban highways are congested⁶
- Congestion costs American motorists \$121B a year in wasted time and fuel costs

Commerce:

- 79% of the \$29 billion worth of commodities delivered annually from sites in Rhode Island is transported by trucks on the state's highways⁷

Need for Federal Investment:

- 83% Federal share of RI's Highway Capital Program.⁸
- National Interstate Backlog of \$185.24b on 47,575 miles of interstate.⁹
 - National Highway System (NHS) backlog of \$424.5b on 227,224 miles of the NHS.

DRIVE Act **→** *What this does for Rhode Island*

Prioritize Bridge Reconstruction and Safety:

- Increased bridge set aside funding for:
 - RI's 174 structurally deficient bridges¹⁰
 - 56% of bridges are structurally deficient or functionally obsolete.¹¹

Improving Commerce

- FY16 dedicated funding for Freight Program: \$11,073,711
- Prioritizing federal spending on interstate for projects in the national economic interest

Long-term Need:

- Total FY16 share: \$226,615,140
- 40 projects at risk without the certainty of federal investment.¹²

- *Major Projects in jeopardy:*
 - Multiple Bridge Replacements- the Great Island Bridge, the McCormick Bridge, and Pleasant Valley Parkway Bridge Replacements are all costly projects on the state's agenda
 - Other Substantial Bridge Projects: The Route 95 Bridge Preservation, and the Hussey and Park Avenue Bridge Repairs are also critical projects
- Building off NEPA reforms accomplished in MAP-21, DRIVE is cutting red tape and accelerating project delivery to increase RI's ability to efficiently finish projects.
- DRIVE delivers 6 years of certainty. 12 short term extensions since SAFETEA-LU have impeded on RI's ability to properly plan and budget for transportation projects.
- DRIVE gives RI the ability to prepare for the next 50 years. With a focus on innovation, RI can better deploy technology to improve the state transportation network.
