Dear Chairman Inhofe, Senator Crapo, Senator Whitehouse, and Senator Booker:

I am writing to express NuScale Power's support for the Nuclear Energy Innovation and Modernization Act (NEIMA). This legislation will promote innovation and the commercialization of a new generation of advanced nuclear reactors. NEIMA contains several provisions that will drive greater regulatory certainty with the Nuclear Regulatory Commission's (NRC) licensing and regulatory processes for advanced reactors. When implemented, the key provisions in this bill should help pave the way for additional investment in advanced reactors, including small modular reactors.

Thank you for your hard work on this important bill.

Sincerely,

A handwritten signature in black ink, appearing to read "John L. Hopkins".
