

MARYLAND (Sen. Mikulski and Cardin)

Current Condition:

- 27% of state's major urban roads are in poor condition¹
 - ASCE road grade of C-2
 - The majority of the roadways in the state network are reaching an age that requires major rehabilitation or reconstruction; approximately 84% of the roadways in MDSHA's network are at least 30 years old³
 - \$1.9B a year in cost to motorists from driving on roads in need of repair, which is \$460 per year for motorists⁴
 - A total of 2,495 people died on highways from 2009 through 2013⁵
- The Baltimore metropolitan area is the fifth most congested in the nation at a cost of \$1,218 per year to commuters⁶
- Trends show vehicle travel is increasing twice as fast as the addition of lane miles⁷
- Maryland's population grew by 23% between 1990 and 2013⁸
- Vehicle travel on Maryland's interstates increased 52% from 1990 to 2004, while lane miles only increased 21 percent⁹
- 65% of state's urban highways are congested¹⁰
- Congestion costs motorists \$121B a year in wasted time and fuel costs¹¹

Commerce:

- 81% of the \$131 billion worth of commodities delivered annually from sites in Maryland are transported by trucks on the state's highways¹²

Need for Federal Investment:

- 48% Federal share of MD highway Capital Program.¹³
- National Interstate Backlog of \$185.24b on 47,575 miles of interstate.¹⁴
 - National Highway System (NHS) backlog of \$424.5b on 227,224 miles of the NHS.

Prioritize Bridge Reconstruction and Safety:

- Increased bridge set aside funding for:
- MD's 317 structurally deficient bridges¹⁵
 - 7% of the state's 5,291 bridges are structurally deficient or functionally obsolete¹⁶
 - Current ASCE grade of B-¹⁷

Improving Commerce

- In the first 3 years of the DRIVE Act, MD will receive \$67,493,620 in addition to growth of the existing programs for freight.
- Prioritizing federal spending on interstate for projects in the national economic interest

Long-term 6-year Certainty:

- Total share for first 3 years of DRIVE Act: \$1,879,413,623 that the state would not get otherwise.
- Major Projects in jeopardy:
 - Construction on I-95: Two-year construction planned to repair and replace drainage troughs, to resurface bridge decks, and other miscellaneous structural repairs has hopes of completion in 2016¹⁸
- Building off NEPA reforms accomplished in MAP-21, EPW Bill is cutting red tape and accelerating project delivery to increase MD's ability to efficiently finish projects.
- 12 short term extensions since SAFETEA-LU have impeded on MD's ability to properly plan and budget for transportation projects.
- DRIVE gives MD the ability to prepare for the next 50 years. With a focus on innovation, MD can better deploy technology to improve the state transportation network.
