Jim - I don't ordinarily share in-house memoranda but wanted you to see. The Administrator is going to COGA and will be asked about this; any value in having Guv call?

In case you hadn't already, when you contact Jim Martin, this is what I would share with him.

Subject: CAFE brief for Gov

Hi,

Here is a memo I pulled together for the Gov for a call with Lisa Jackson. The one-pager covers the three main incentives that EPA is giving electric vehicles over NGVs. Also attached are the letter we sent to Lisa Jackson and the response we received.

What are next steps?

Thanks, M.E.
