The Honorable John Barrasso, MD
Chairman, Senate Committee on Environment and Public Works
410 Dirksen Senate Office Building
Washington, DC 20510

Dear Chairman Barrasso,

On behalf of the Wyoming Wool Growers Association, we write to support S. 3021, America's Water Infrastructure Act of 2018, which was recently passed out of the House of Representatives. While it is somewhat different from the Senate bill we offered support for earlier in the year, we believe this bill remains a good bill for Wyoming, including our sheep and livestock producers, and the West. We are pleased to offer our support for its final passage.

Thank you for the opportunity to comment on the legislation. If you need further information, please don't hesitate to contact our office.

Sincerely,

Amy W. Hendrickson
Executive Director
