

HAL QUINN
President & CEO

May 7, 2018

The Honorable John Barrasso
Chairman
Committee on Environment and Public Works
United States Senate
Washington, DC 20510

Dear Chairman Barrasso:

The National Mining Association commends you for your leadership in authoring and introducing S. 2602, the "Utilizing Significant Emissions with Innovative Technologies Act."

Specifically, we support provisions that promote further research and development of technologies that will convert carbon into products of commercial value. We also support the goal of reviewing and developing policy guidance to facilitate the permitting of the necessary supporting infrastructure including carbon dioxide pipelines.

Thank you for putting forward this legislation.

Sincerely,

Hal Quinn
