For the congressionally directed spending item, the name and location of the intended recipient or, if there is no specifically intended recipient, the intended location of the activity:

The Metropolitan North Georgia Water Planning District,
30 Courtland Street, NE
Atlanta, GA 30303

The purpose of the congressionally directed spending item:

To fund construction of conveyance systems to connect both existing and planned water and wastewater infrastructure and facilities. These critical connections will allow the greater Atlanta metropolitan area's water and wastewater systems to function more efficiently, in a regional - rather than an individual locality - approach. These connection needs are outlined in detail in the District's adopted Water Supply and Water Conservation Management Plan and will involve establishing new connections and maintaining existing connection to numerous District communities including, but not limited to, Cobb, Coweta, DeKalb, Douglas, Fulton Paulding and Walton counties, as well as the City of Atlanta.

To team with the US Army Corps of Engineers to study and formulate projects relating to water supply, flood control, and other water quality improvements. These projects will be similar to the current projects being undertaken by the Corps and Fulton County, but will expand upon the current concept to involve multiple jurisdictions on a watershed basis. These projects will address long-term watershed management planning and restoration activities and will be designed to improve the water quality of our rivers and streams.

Pursuant to Rule XLIV of the Standing Rules of the Senate, I certify that neither my immediate family nor I has a pecuniary interest in the congressionally directed spending item requested.
